

枠バリエーション

Technical drawings of a rectangular box. The left drawing is a side elevation showing a box with a total width of 70, a base height of 55, and a top height of 30. The base is divided into a 20-unit section on the right and a 40-unit section on the left. The top is divided into a 15-unit section on the right and a 30-unit section on the left. The right drawing is a top-down view showing a box with a total width of 70 and a total depth of 55. The width is divided into a 20-unit section on the right and a 40-unit section on the left. The depth is divided into a 15-unit section on the right and a 40-unit section on the left. The box has a base height of 10 and a top height of 12. The box is labeled with 'H' for height, 'W' for width, and 'D' for depth.

Technical drawing of a rectangular box with dimensions and labels. The drawing shows the front and side views of the box. The front view (left) shows a box with a total width of 70 and a total height of 55. The top edge has a thickness of 10, and the bottom edge has a thickness of 12. The side view (right) shows a box with a total width of 70 and a total height of 55. The top edge has a thickness of 10, and the bottom edge has a thickness of 12. The box is labeled with dimensions: 10, 35, 40, 70, 20, 15, 30, 55, 40, 10, 35, 10, 70, 20, 15, 25, 15, 25, W, H.

Technical drawings of a rectangular box. The left drawing is a side elevation showing a box with a total width of 70, a top flange height of 35, and a bottom flange height of 55. The bottom flange is divided into a 50 segment and a 5 segment. The right drawing is a front elevation showing a box with a total width of 100 (30 + 70 + 30), a height of 70, and a base width of 50 (25 + 25). The drawings include labels for dimensions and components.

Technical drawing of a window frame showing dimensions and components. The drawing includes a side elevation and a top-down view. Dimensions are given in millimeters (mm).

Side Elevation Dimensions:

- Top horizontal dimension: 30
- Left vertical dimension: 10, 12
- Bottom horizontal dimension: 10, 12
- Internal horizontal dimension: 70
- Internal vertical dimension: 20
- Right vertical dimension: 15, 30
- Bottom horizontal dimension: 40, 55
- Height dimension: H

Top-Down View Dimensions:

- Top horizontal dimension: 25
- Left vertical dimension: 70
- Bottom horizontal dimension: 20
- Right vertical dimension: 15
- Bottom horizontal dimension: 25
- Width dimension: W

Technical drawing of a mechanical part showing front and side views with dimensions.

Front View (Left):

- Overall width: 10
- Top flange width: 12
- Top flange height: 30
- Internal width: 70
- Internal height: H
- Bottom flange width: 40
- Bottom flange height: 55

Side View (Right):

- Overall width: 25
- Top flange width: 25
- Top flange height: 70
- Internal width: 25
- Internal height: W

Technical drawing of a mechanical part showing front and side views with dimensions.

Front View (Left):

- Overall width: 70
- Overall height: H
- Top flange thickness: 10
- Top flange width: 35
- Bottom flange thickness: 12
- Bottom flange width: 55
- Internal vertical distance: 50
- Internal horizontal distance: 35

Side View (Right):

- Overall width: 30
- Overall height: 70
- Top flange thickness: 10
- Top flange width: 25
- Bottom flange thickness: 12
- Bottom flange width: 25
